Navigate to previous occurrence

alt+ctrl+DOWN

Navigate to next occurrence

shift+ctrl+BACKSPACE

Move to last edit location

Code Folding

ctrl+=

Expand current method, class, or block

shift+ctrl+=

Expand all folded blocks

ctrl+.

Fold or expand current selection

shift+ctrl+.

Fold current code block

Debugging

shift+F9

Debug

shift+alt+F9

Choose configuration and debug

F8

Step over

F7

Step into

shift+F7

Select method to step into on current line

shift+F8

Step out

shift+alt+F8

Force step over

shift+alt+F7

Force step into

alt+F9

Run to cursor

alt+ctrl+F9

Run to cursor ignoring breakpoints

F9

Resume program

shift+F2

Stop program

Running

ctrl+F9

Make project

shift+F10

Run

shift+alt+F10

Choose configuration and run

shift+F10

Rerun without losing focus in editor

ctrl+F10

Reload updated resources

alt+F8

Evaluate expression

alt+ctrl+F8

Quick evaluate expression

Find And Replace

ctrl+F

Find

ctrl+R

Replace

ctrl+L

Find next

shift+ctrl+L

Find previous

shift+ctrl+F

Find in path

shift+ctrl+R

Replace in path

alt+F7

Find usages

Bookmarks

ctrl+F11

Toggle bookmark with mnemonic

ctrl+3

Go to bookmark number 3

ctrl+7

Go to bookmark number 7
